Mariia Samoylenko

To whom it may concern

Mariia joined the practice in the role of architectural assistant on 29th June 2022 and has worked on the following projects and RIBA workstages;

- Chalet Thomily (Private Residence : refurbishment and extension- French Alpes)

This private residential project consists of the substantial refurbishment of the existing five storey building alongside a below and above ground extensions, and the inclusion of a lift. Mariia worked with her colleagues within the office, and across a number of design disciplines including structure, building services, interior design and furniture, whilst preparing architectural documents to RIBA workstages 3 and 4.

- Church Farm House (Private Residence : extension and re modelling – Wiltshire, UK)

This project is set within a conservation area, with nearby listed buildings, and includes the addition of a contemporary timber frame, timber clad extension, and the re modelling of the existing kitchen, utility and garage to create a series of accessible spaces for future living of the client and their elderly relatives. Mariia developed the existing planning drawings, including the integration of the topographical survey drawing, to create the initial spatial co ordination drawings to support the tender package. Mariia worked with her colleagues in the office to prepare architectural documents to RIBA workstages 2, 3 and 4, including drawings and schedules

- Chalet Alysson (Private Residence : refurbishment and extension- French Alpes)

This private residential project consists of the substantial refurbishment of the existing building alongside a significant above ground extension. Mariia worked across a number of design disciplines including structure, building services, interior design and furniture, whilst preparing architectural documents to RIBA workstages 3 and 4.

Mariia is dedicated to the task at hand, and has learnt a great deal about the different levels of detail and accuracy required to complete tender/ construction documents and drawings to communicate ideas to clients. Mariia has been an asset to the team and projects that she has worked on. We will be sorry to see Mariia leave the office but are pleased that she is moving on to progress her studies.

Yours faithfully
